MEMORANDUM FOR: Director of Training

SUBJECT : Weekly Activities Report  
13 - 17 September 1971

GENERAL

1. The CS segment of the IWA course took place this week before an alert class. Preliminary opinions hold that the revised role-playing situations - the country team, the COS meeting with an operations officer and the agent meeting - went much better than in the previous running, owing to the common geographical thread running through all three. There is a feeling we may still have to shorten somewhat the country team session so as to be able to lengthen the agent meeting portion. A more complete evaluation will be available next week.

2. The projected COS Seminar, beginning 27 September, was cancelled for lack of enrollees.

3. The Risk of Capture briefing this week was cancelled because there were no students enrolled.

STAFF TRAINING BRANCH

4. The Special Operations and Liaison Course for NSA will be conducted for the second time from 20 - 22 September in room 1A07, Hqs. Twenty-one students are enrolled, including several super grades.

5. Mr. [ ] conducted a two-hour tutorial on CS records for Mr. [ ] COB-designee, [ ]
